SO ₂	0	0
NO _x	0	0
CO	0	0
VOC	0	0
LEAD	0	0
HAP >= 10 tpy (by CAS)		

*Increases from modification only

SOURCE PROCESS DESCRIPTION:

Gallatin Steel Company submitted a minor permit revision for the installation of material recycling facilities on the grounds of the barge terminal that was included in Permit V-99-003. The building is currently used for material storage and will be modified to accommodate the equipment to be used for recycling. This revision will result in the addition of 28 material handling units comprising one process. The roadways were not reviewed because they were considered in the original PSD. This revision will not result in any additional traffic.
